PROJECTS

COWORK PROJECT [🔗](#)

A versatile website allowing customers to publish, perform CRUD operations, and make payments, with taskers receiving notifications for efficient task management. Universal payment options for all users.

INVOICES PROJECT [🔗](#)

Create a comprehensive invoice system using Laravel's Blade templating, offering essential features for businesses. Streamline invoicing, payments, and records with user-friendly design and functionality.

PHP CRUD & LOGIN SYSTEM

Creating a full-fledged PHP native project with a CRUD (Create, Read, Update, Delete) system and a login system is a substantial task. Here, I'll provide you with a high-level, professional project structure

GIRLS TEMPLATE [🔗](#)

Utilize a CSS3 template designed with a feminine touch, tailored to enhance the aesthetic appeal and user experience of websites targeting a female audience.

EGYPT TEMPLATE [🔗](#)

Design an Egypt-themed website template with HTML, CSS3, and Bootstrap, featuring rich visual elements and responsive design to capture the essence of Egypt's culture and heritage.

COFFEE SHOP

Craft a coffee shop website template with HTML and CSS, exuding a warm and inviting atmosphere to showcase the cafe's offerings and engage customers.

LEON TEMPLATE [🔗](#)

Develop a professional website using HTML and CSS, highlighting the legacy and accomplishments of "Leon" in an engaging and visually appealing manner.
